PRÁCTICA 1: BLINK

CÓDIGO

```
int led = 13;

void setup() {
   pinMode(led, OUTPUT);
   Serial.begin(115200);
}

void loop() {
   digitalWrite(led, HIGH);
   Serial.println("on");
   delay(500);
   digitalWrite(led, LOW);
   Serial.println("off");
   delay(500);
}
```
